PROFESSIONAL EXPERIENCE

Software Developer Intern

Council of Ministers of Education, Canada | May 2025 – September 2025

- Assisted in developing and maintaining internal web tools used by staff for data management and reporting.
- Wrote and debugged Python and JavaScript scripts to automate repetitive IT support and data-handling tasks.
- Collaborated with the IT team to integrate system monitoring features and improve workflow reliability.
- Managed user authentication and access control through internal software dashboards.
- Delivered bilingual (English/French) user support and training for newly deployed software systems.

Software Developer Intern

QTech Software | Ottawa, ON | Oct 2024 – Apr 2025

- Designed and implemented internal **web applications** improving workflow efficiency.
- Wrote clean, maintainable **Python** and **JavaScript** code following best practices.
- Created **unit and integration tests**, reducing production bugs and improving stability.
- Collaborated with product teams to define requirements and deliver features on schedule.
- Authored **technical documentation** to support long-term maintainability.

Application Developer/Support Intern

Canadian Imperial Bank of Commerce | Toronto, ON | May 2023 – May 2024

- Supported internal business applications by diagnosing software, system, and network issues affecting commercial clients.
- Automated routine troubleshooting and configuration tasks to improve team efficiency.
- Collaborated with developers to escalate bugs, validate fixes, and support deployment of enhancements.
- Managed user access, security permissions, and documentation across internal systems.
- Delivered clear bilingual (English/French) technical support to non-technical end users.
